Hillfield Strathallan College
Here Excellence is a Way of Life

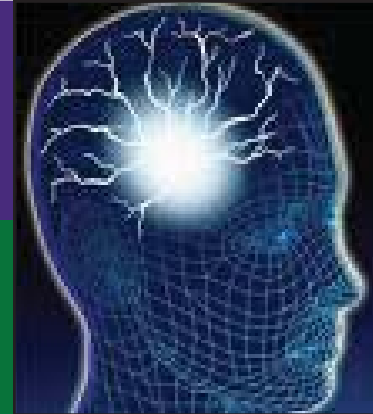

THE BRAIN, LEARNING, & APPLICATIONS INSTITUTE

August 24 - 25, 2010

Presented by:

Hillfield Strathallan College www.hsc.on.ca

Greenleaf learning www.greenleaflearning.com

This two-day institute, presented by Greenleaf Learning and Hillfield Strathallan College, is designed to offer knowledge about the brain, brain research, and brain-based learning. Experts from the fields of education, neuroscience, and cognitive science will discuss how research from the field of neuroscience can be utilized in practical ways to enhance learning.

Topics include:

- *brain development & early learning*
- *critical thinking*
- *creativity, intelligence & memory*
- *learning differences*
- *emotions and learning*
- *executive functioning & adolescents*
- *neuroscience & mathematics learning*

Featured Speakers:

- *Dr. Fraser Mustard*
- *Dr. Lise Eliot*
- *Dr. Steven Feifer*
- *Dr. Rex Jung*
- *Dr. David Levine*
- *Dr. Garfield Gini-Newman*
- *Dr. Daniel Ansari*
- *Dr. John Mughton*

Who should come?

All K-12 educators, administrators, learning specialists, special educators, reading specialists, psychologists, social workers, counselors, speech and language pathologists, staff developers, and anyone interested in learning more about the topics being covered are encouraged to attend.

Check back later for registration information, conference updates and registration at www.hsc.on.ca/BLAI2010
