"The Leadership Institute was a valuable and worthwhile experience. The modules were practical, motivating and very relevant. The faculty at the LI were knowledgeable and have continued to act as mentors. Most important was the opportunity to meet so many like-minded, CAIS colleagues and those connections continued each summer and beyond. My time at the LI allowed me to gain confidence as a leader."

— Jen McKay, Matthews Hall

"My time at the LI genuinely changed how I accomplish and enjoy my role as a vice principal. The modules provided important insights into areas of running an independent school that I had either not considered or had little to no understanding of. Perhaps even more valuable to my LI experience was meeting, sharing, and problem solving with peers from all over the country. It was incredibly gratifying to learn that so many of us share the same challenges but more importantly can offer solid strategies and solutions to solve our common issues. I am also grateful for my time at the LI as I have developed friendships that I believe will last for the remainder of my career."

— Warren Lee, West Point Grey Academy
